About Me

I graduated from the electronics technology department in high school, and studied electronics technology at university because of my interest. Due to my interest in informatics and technology, I i am provied myself in the software department, took html, css, javascript courses and i am actively learning React JS. I am willng to work in this industry. There were many companies where I worked in an information technology for provided software and hardware support.

Skills

- Management Skills
- Creativity
- Developing Websites
- Critical Thinking
- Leadership

Programming Skills

- HTML
- CSS
- Next Js
- React
- Wordpress

Education

● **Acunmedya Akademi**
Nisantasi University   2024-2024

I am taking a Front-End Developer course at Acunmedya Academy. I continuously improve myself by working on projects here, and I aim to grow every day. The program progresses in two levels: the first is basic training, and the second is advanced training. I have now completed my advanced training as part of an 8-month curriculum. Currently, I am working on my capstone project.

What have I done at Acunmedya?
- Next.js
- React.js
- Supabase
- Building Websites Using HTML/CSS and JavaScript
- Creating Various Types of Websites (Coffee, Travel, Education, etc.)
- Developing Interactive Websites
- Dark Mode Implementation
- Basic JavaScript Games
